

EDUCATIONAL QUALIFICATIONS				
Course/Examination	Institution	Year of Passing	Performance	
B.Sc. (H) Computer Science	Shaheed Sukhdev College of Business Studies (University of Delhi)	2026	8.4 CGPA (Till 5th Semester)	
AISSCE (Commerce)	St. Margaret. Sr. Sec. School (Prashant Vihar, Delhi)	2023	91.4% [457/500]	
AISSE	St. Margaret. Sr. Sec. School (Prashant Vihar, Delhi)	2021	66.4% [332/500]	
Summary: B.Sc. (H) Computer Science graduate from SSCBS, Delhi (CGPA: 8.4) with hands-on experience in Excel(Advance), SQL, Python, and Power BI across 5+ real-world projects. Seeking opportunities to apply strong analytical and problem-solving skills in a dynamic, growth-oriented environment.				
TECHNICAL SKILLS: MySQL, Microsoft Suite(Excel, PowerPoint, Word), Python, Power BI, Claude AI, C++, MERN Stack, Canva				
INTERNSHIPS				
Unstop - Campaign Intern		[8 weeks, July - September 2025]		
- Generated 10,000+ registrations for flagship challenges (e.g., Tata Imagination, Tata Crucible, L’Oréal Sustainability) and utilized advanced Sheets and data entry while auditing and manage a database of 2,000+ TPOs, Achieved 100% accuracy during the verification of credentials - Performed independent oversight and validation of 500+ participant profiles for the Godrej Hiring Challenge, ensuring 100% compliance with client-specified eligibility criteria and managed client microsites for high-impact campaigns like HUL Techtonic and HUL Lime Designed heatmaps of academic calendars for the top 50 B-Schools and 50 E-Schools, enabling precise campaign scheduling				
Moodale - Graphic Design Intern		[12 weeks, February - May 2024]		
Created 15+ digital creatives for diverse clients across multiple domains, maintaining brand consistency and campaign relevance - Utilized Canva and Figma to deliver high-quality, on-brand creatives with quick turnaround and designed logos, posters, and social media graphics to support marketing campaigns and promotional activities across multi-tiered marketing operational rollouts				
PROJECTS UNDERTAKEN				
Anomaly Detection in Financial Networks (Research Paper)	Developed a 3-tier anomaly detection framework to identify and extract dense fraudulent subgraphs Engineered a 3-tier anomaly detection framework on an Ethereum dataset of 1.9M+ transaction records, specifically designed to isolate and extract dense subgraphs indicative of fraudulent activity - Developed a high-precision pruning pipeline utilizing Local Clustering Coefficients, Charikar’s Greedy Peeling, and Spectral Graph Theory to mathematically isolate core anomalous structures Benchmarked 8+ graph algorithms through a comprehensive review of 5 peer-reviewed research papers; currently authoring the final manuscript in LaTeX for academic publication			
	Data Jobs Dashboard (Power BI)	Crafted a Power BI dashboard analyzing 480k+ job postings to visualize hiring trends with a dynamic, bookmark-integrated UI Architected a comprehensive Data Jobs Dashboard by processing a large-scale dataset of 480,000+ job postings to uncover global salary trends and hiring patterns across diverse technical roles Performed rigorous data pre-processing and cleaning using Power Query to ensure data integrity across 10+ job titles Engineered a dynamic UI featuring bookmark-controlled slicers for exploration of yearly and hourly median salaries		
		Flipkart Product Rating Prediction	Built a predictive analytics pipeline achieving 84.3% accuracy in identifying key determinants of consumer ratings - Engineered an end-to-end predictive pipeline to scrape 16,000+ Flipkart product records across multiple categories using BeautifulSoup, capturing product details such as category, brand, price, and ratings (10+ Variables) Developed a comprehensive market analysis pipeline to identify the key determinants of product success, achieving 84.3% accuracy in predicting consumer rating tiers - Preprocessed and Engineered features, handling missing values, encoding categorical variables, and creating a 3-class target variable (High, Medium, Low) based on product ratings	
			IPL Data Analytics	Analyzed a 260k+ row ball-by-ball dataset, delivering 10+ actionable insights and season-wise analytical summaries Analyzed a 260k+ row ball-by-ball dataset and a match-level dataset (2008-2024) using Power Query for data cleaning and Pivot Tables for in-depth analysis to uncover trends, player performances, and match dynamics - Delivered 10+ actionable insights - top run scorer, highest wicket taker, teams with most extra runs, maximum catches by a fielder - while developing season-wise, player-wise, and team-wise analytical summaries
FinTrack (Finance Tracker)	Built a full-stack MERN application for managing daily finances, featuring a responsive UI and interactive charts - Built a full-stack finance tracking app using the MERN stack, enabling users to manage daily income and expense records Designed and Deployed a responsive UI with React, TailwindCSS, and DaisyUI, integrating React Toast for real-time alerts Implemented interactive data visualization features using Chart.js and React Calendar Heatmap to track and analyze income and spending patterns also conducted user testing with 25+ users, achieving high performance, reliability			
AWARDS AND ACHIEVEMENTS				
Team Achievement	Top 10 - CaseXcel - Maharaja Agrasen College (University of Delhi)		[2025]	
Personal Achievement	Contributor [50,000+ registrations] - Girlsript Summer of Code (GSSoC’25) – Girlsript Foundation		[2025]	
Academic Achievement	Rank 1 - AISSCE – School Maths Topper		[2023]	
POSITION OF RESPONSIBILITIES				
Coordinator (Convergence - SSCBS)		[July 2024 - June 2025]		
- Led a team of 45 members as Coordinator across departments to plan and execute Convergence’24 — The annual flagship event of SSCBS, ensuring seamless coordination and timely delivery of all activities while playing a key role in hosting 12+ distinguished speakers (including Dr. Tanu Jain, Mr. Anupam Kulshrestha, Dr. Shelly Batra, and CS Ujjawal Pahwa), engaging a live audience of 600+ students - Designed and developed 30+ digital assets including social media posts, digital brochure, reels, standees, pitch decks, and posters, maintaining a consistent and professional brand identity across all channels to ensure uniform presentation and complete engagement - Created compelling graphics as lead of the design team, helping the event achieve 55,000+ Account Reach and a 2,500% Surge in social media viewership through structured creative distributions and targeted promotional layouts				
OTHER INTERESTS AND ACTIVITIES				
Problem Solving	Solved 150+ LeetCode Questions, demonstrating advanced proficiency in optimized SQL Querying			
NSS Volunteer	Coordinated community outreach programs and social awareness campaigns , organizing large-scale blood donation drives
